

Sammanställning delegater Euro Mine Expo 2008

47 svar av 187 = 25%

1: Was it a given decision to participate in Euro Mine Expo 2008?

| | | |
|-----------|--|---------|
| Yes | | 26 svar |
| Uncertain | | 8 svar |
| No | | 14 svar |

Comments:

Too many events already on
I was asked by Aura Energy & Drake Resources to participate with them.
I don't understand the question.
Yes, I was involved to some extent in "selling" the Show abroad.
Were good place to meet customer and study other suppliers.
I cam eto see what the scale was and who attended.
I did not actually visited Mine Expo 2008.

2. What were your main reasons for visiting Euro Mine Expo 2008?

| | | |
|--|--|---------|
| Look for new solutions/technique/products/services | | 14 svar |
| Find new suppliers | | 4 svar |
| Maintain existing business contacts | | 16 svar |
| Participate in the conference programme | | 15 svar |
| Networking | | 40 svar |
| Other | | 3 svar |

Comments:

Learn more about the mineral exploration business.
And looking for new business contacts
meeting new clients
What a wonderful meetingplace for the entire industry!
Perfectly, meet a lot of customers and was getting contacts.
Promoting technology
To see if it atracted the type of customers for our products.
Start the sales in Northern Sveden, Buil up the customer network.
New clients

3. What exhibitor categories were the most important for you to meet at Euro Mine Expo 2008?

Working mines and mines that are being opened
Mining % Engineering Companies
Mining companies
The exploration companies.
Exploration companies
For my company posible clients that could use our ALS network labs.
Mining Software Suppliers
Mining companies who require environmental assistance (permitting, investigations, remediation etc)
Drilling contractors and equipment manufacturers
I was more like an exhibitor myself. Most interesting to meet were Exploration companies
Exploration companies
mining companies
what categories have you had?

All foreign based companies.
Exploration and mining companies
Drill steel and exploration equipment
Waternreatment
New and Existing mine owners / projects. talvivaara etc
The mines and exploration companies. Also equipment suppliers.
Exploration and prospecting
confidential
Mining Operations and geological/mining consultants
operating or new mines
EQUIPMENT FOR CONCENTRATING
Generally exploration companies and actual prospecting areas.
Social responsibility
Service providers.
Diamont drilling
Drill tools
Mine case studies
Other mining company representatives.
miningcompanys
Consultants
Exporation/mining companies
Consultants working with social impacts from mining
All
Mining/exploration companies

4. Have you made new business contacts at the trade fair and conference?

Yes 39 svar

No 9 svar

Comments:

Met old and possible new partners

Several

Mostly more representative for companies and institutions I was already aware of, but some totally new ones as well

Just a couple.

Exploration drilling contracts were discussed.

5. What was positive about Euro Mine Expo 2008?

Comments:

good facilities, interesting speakers, positive with an expo in northern Sweden

There weren't a lot of exhibitors but all the participants were relevant and strictly of the right field.

Good networking platform. this factor will even increase when people meet more often at this event.

- The atmosphere - Mining industry is extended all over the world, still it is a small one; you get to know most of people involved easily on these sort of conferences.

Good atmosphere, many international people

Very large and diversified group of people from all walks of the industry. International clientele, as well as local reps. Excellent location and good food, excursions etc.

Good standard of speakers (especially Eric Finlayson)

Good conference program, excellent service for all participants

Meeting people in the exploration and mining industry

the facilities were large/small enough to have a good overlook of all happenings

the size and the fact that I was allowed to put up a table next to the tranquility room on the first floor, a very calming

The location, i.e. Skellefteå, right in the Northern European mining region.

Good programme of presentations. Very well organised.

Very well organised as usual, you are very clever on this in Sweden, I am a Norwegian.

Good presentations. A lot of participants.
A lot of people from different countries. News about the present situation
Professional organisation. Not too much to see. Suitable length.
presentations were very informative
A part of conference program as "Human Resources Challenges in the minerals and metals industry".
Social responsibility presentation
The atmosphere among the participants.
Big amount of participants
Helpful staff and good organized
The conference programme was very good.
It is an European event - and of course the strong presence of northern Europe
the program and the exhibitions were both very well planned
New contacts. Expanded network.
Location.
It was well organised
Good presentations and interesting subjects (HR, gender awareness, social impacts, indigenous people). Picking up at hotel. Easy to sign up.
Everything. Overall a good arrangement.
Lot of people

6. What was negative about Euro Mine Expo 2008?

Other:

the sound in the aula did not work well at all times, difficult for some visitors to find accommodation.
there could have been more exhibitors
The technical problems during the first day session
The catering (coffee and refreshments) should have been organized in better way, eg. free water bottles?
Should not compete with FEM as Fennoscandia does not need more conferences
No comments
Quality of the presentations
Shortage of rooms in Skellefteå, had to find distant relative of wife to stay with. Not so easy for foreigners. Same excursions should have been given on more than one day to allow multiple visits, or just allow more people to join. Local presenters (from
Only the downturn in the market !!!
The exhibition was spread out all over the building
not easy to find accommodation in a late stage
nothing, except that I couldn't find a potential buyer for our drilling rigs, hopefully next time and I hope I'll get the same opportunity next year, thank you again.
I had some problems with the food. Except for the banquet it was pretty uninspiring.
That I could not attend the mine visit, when you are travelling so long and is so close to many mines it should be possible for more people to go to the mine.
Way too many seminars - only a very few attendees at each.
It was a little bit too small scale. Location is not ideal for travelling etc.
We did not achieve our aims.
The program of the Conference were included many same presentations than in other mining conferences.
Bad technicians the first day
Too little time (as usual).
Too much non interesting speakers for small mining companies
Too few hard core mining presentations. The afternoon of the last conference day was really what I came for.
Lack of rooms. Had to stay in Boliden...
Small place, not enough booth space

7. What do you think of Euro Mine Expo as to overall impression

7a. What do you think of Euro Mine Expo as to exhibitor quality

7b. What do you think of Euro Mine Expo as to number of exhibitors

7c. What do you think of Euro Mine Expo as to conference programme

7d. What do you think of Euro Mine Expo as to social activities

| | | |
|--------------|---|---------|
| Good |  | 18 svar |
| Satisfactory |  | 12 svar |
| Bad |  | 1 svar |
| Very Bad |  | 0 svar |
| No Opinion |  | 4 svar |

7e. What do you think of Euro Mine Expo as to atmosphere at the trade fair and conference

| | | |
|--------------|---|---------|
| Very good |  | 16 svar |
| Good |  | 22 svar |
| Satisfactory |  | 5 svar |
| Bad |  | 2 svar |
| Very Bad |  | 0 svar |
| No Opinion |  | 0 svar |

8. What do you think about the scope of the conference programme?

| | | |
|------------|---|---------|
| To large |  | 4 svar |
| Just right |  | 38 svar |
| To small |  | 5 svar |

Comments:

To many days.

More on environmental issues, more case studies, more discussions. Less local politicians and university reps with nothing to say or reading out of notes from old lecture notes.

Of course you could not participate in everything! The whole idea was to be able to be selective and spend time on networking as well.

Many topics way out of the individuals field of interest. The parallel sessions was a practical solution to this, as were the repeated presentations by the exhibitors. Anyway, I left less single minded than I arrived!

We saw all we wanted to without missing anything. Had time to do some business talk too.

9. Do you think the choices of subjects for the conference were relevant and added new knowledge?

| | | |
|-------------|---|---------|
| Yes |  | 37 svar |
| No |  | 4 svar |
| Do not know |  | 7 svar |

Comments:

Some of the swedish speakers were definitely no good examples and did not make a nice impression on people from the big mining countries.

The program was very varied and offered something for everybody.

10. Was there anything you felt was missing from Euro Mine Expo 2008?

No 31 svar
Yes, the following 11 svar

Comments:

The given flash stick with the presentations on it was helpfull to reflect some of the presentations. Unfortunately some of the shown presentations were missing.

Some more stop during the conference because there was interesting lectures but in the same time you want to have some time to discuss with several people.

There was no speaker from the legal community to talk about relevant legal issues, which are several.

Technical presentations Case studies

I would welcome more student work from the various universities, maybe an additional session for student projects to be presented. More sustainability studies, social impact work, etc. Work in emerging areas (Russia etc)

I believe more invited speakers from abroad should give us more knowledge how the industry works in other countries.

The conference was divided in too many rooms, corridors etc.

Just scale. need space for actual machinery.

Relevant University, research results

Have you considered short courses

Some companies/schools left too early. Missed important talks with them.

11. Where did you see advertising of information about Euro Mine Expo 2008?

Advertisements in trade press 9 svar
Newspaper/magazine article 6 svar
Invitation from an exhibitor 6 svar
Conference programme 7 svar
Work/Colleague 24 svar
Euro Mine Expos website 18 svar
Exhibitor's website 1 svar
Other 7 svar

Comments:

Received information from Raw Materials Group

Almost missed this conference due to poor advertisement.

I was around the people who came up with the original idea for the Show.

Invitation at other trade show by the organiser.

Colleague surfed by coincidence by

12. What rating would you give Euro Mine Expo 2008 in terms of overall impression of services

Very good 11 svar

| | | |
|--------------|---|---------|
| Good |  | 28 svar |
| Satisfactory |  | 8 svar |
| Bad |  | 1 svar |

14. What do you count as your three most important trade fairs and/or conferences to visit?

Do not visit any other fairs/or conferences  7 svar

Comments:

BAUMA ACHEMA NIBA

Please! Better information to the city because every bar or restaurant was closed at 21.00. Visit the city during late evening was totally scandalous. Your bars and hotels must earn much of money during other time when there was not interest to have open

FEM in Finland, PDAC in Canada, Euro Mine Expo in Sweden

15. Are you interested in visiting Euro Mine Expo next time it will be arranged on 8-10 June 2010 in Skellefteå, Sweden

| | | |
|--------------------|---|---------|
| Yes, absolutely |  | 11 svar |
| Yes, probably |  | 22 svar |
| Maybe |  | 8 svar |
| No, probably not |  | 3 svar |
| No, absolutely not |  | 1 svar |
| Do not know |  | 3 svar |

Comments:

Better in summer for sure!!!!!! The cold weather in October in Sweeden was the only bad thing I found about the conference; sorry, I come from a warm place.

Subject to market economics....

Would not miss it if I am still involved in the mining industry

Well into the field season. Try one or two months earlier.

I do not expect to be living in Sweden at that time.

Bad timing

But I might not as it is not my decision

**16. How important are the following aspects in the structure of the future Euro Mine Expo?
That I can meet current suppliers**

| | | |
|---|---|---------|
| 5 |  | 4 svar |
| 4 |  | 13 svar |
| 3 |  | 19 svar |
| 2 |  | 4 svar |

| 3 |  | 12 svar |
| 2 |  | 6 svar |
| 1 |  | 8 svar |

17. In conclusion, can you provide three development suggestions for Euro Mine Expo 2010?

Comments:

1) Find a better location for the exhibitors 2) Try to get more attention from the International community 3) Arrange for transportation from the airport
No really. I think everything was good. A
Better technical programme Student should be allowed free entrance (or at a heavily discounted price) Have more hotel rooms available
More workshops/short courses for various topics. Improved and screened local input quality (Swedish contributions). Book sales!!!
More on the global mineral exploration market. More on new technologies in mineral exploration.
Move the exhibition to a larger facility
Better microphone equipment, more speakers from foreign companies, speakers from the financing sector in Sweden
Better web information about who is coming. Better badges for one-day trade show visitors.
More space in the conference program to visit the exhibition.
If its going to be held in Sweden, it should be held in Stockholm, to cut down on connecting flights. Need larger premises to allow for actual machinery demonstrations. European mining also includes Coal and Lignite, the big manufacturers should be present
Some of the providers of say mining or exploration software might be interested in arranging training sessions before or after the conference. This could be practical, as we have already covered the travel expenses
More space, better speaker-system

18. Other comments:

I would be happy to speak at next year's event on legal issues.
Does there need to be one
Very well done for a first conference in the field.
This was such an excellent Show that I am sure it will attract more exhibitors and visitors next time.
Please take a look at Hillhead Exhibition in the UK. This is a quarry exhibition more than anything, but was larger and more appropriate than Euro Mine Expo.
these questions too late, I have already forgotten and did not have time to check
Please, make a spell check of the questionnaire before sending it...
HAVE DOUBT ABOUT YOUR MARKETING ORG. BEING THE SECOND LARGEST EXPLORATION DRILLING COMPANY IN SWEDEN LOCATED LESS THAN A KILOMETER FROM THE CONFERENCE AREA I WE WERE NOT INVITED TO PARTICIPATE AS AN EXHIBITOR. SEING MINOR COMPETITORS HAVING STANDS THEI
Thank you for the good and quick service from the arranging company with hotel etc. Perfect with USB so that we could distribute slides etc. to colleagues.
